# Femi Olabiyi
Software Engineer

## SUMMARY

Creative, detail-oriented, software engineer with a deep interest in AI. Proven track record of creating and implementing successful front and back end web applications. Looking to bring my skills to a tech company with global reach with my solution based approach to every challenges.

## WORK EXPERIENCE

### Software Engineer at 100devs, Los Angeles, CA

October 2020 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Hip Coffee Co (Fullstack Web App) — Cashier can take coffee orders from customers with their names. Baristas can login to the app and see orders that have been made, mark them as complete. Orders that have been completed will note which barista completed the order.

News App (Fullstack Web App) — A modern news web app for everyday use. Implemented with beautiful UI to attract every audience. They can add new notes through an input, which they can then edit or delete all notes in their profile.

100Hours Project — A modern social media application built from scratch.

Other Projects: Small Lakes Casino Virtual Slot Machine, Los Angeles StarGazers Society APOD Web App with NASA API integration, To-do List App(React+Next), On-demand background color changer and picker for Partnered Twitch streamer, and many more.
